YOUR RESOURCE LIST

Deciding what resources you would like to let others know about is important. The Internet is a large audience. This has both positive and negative realities.

To the left you will find a list of sample topics to consider. This is not a complete list of your options. It is meant to inspire you to think of what others might want to seek you out for, what you might need, and how you can reach the community around you as well as suffering Christians.

Internet access allows you to connect with others in many ways.

Consider linking to a PDF, VIDEO, or PROGRAM WEBPAGE. These will be able to explain your situation better than our short description space. It will allow others to explore your work at their leisure, and more frequently if they want or need to.

Making sure your information can be easily and clearly printed is another important opportunity you don't want to forget about. Depending on where your listing is located, and what people are searching for, having printed reminders of what they have seen is another marketing tool for your work and their needs. You can also offer to mail a special resource you have put together. Integrate local and International outreach applications into your offers. Annual events are a great thing to share.

Since CORD listings can be viewed and utilized by single individuals or millions of strangers, **make sure the BOUNDARIES of your offer are easily interpreted.** Keep it simple but try not to forget the most important details.

Each International CORD Christian Listing is limited to a TOTAL of ten additional resource categories.

We expect there may be some overlap of details in your descriptions, but it would be a waste of your opportunity to completely duplicate information in several resource categories. What you choose to share and how you choose to say it is your decision. As long as it reflects the righteousness of Christ and the expectations of God, it will be displayed. If there is a problem, we will contact you. **We reserve the right to reject listings that we feel are not acceptable.**

Each RESOURCE LISTING is limited to 250 WORDS.
